---

## EDUCATION

**Claremont McKenna College, Claremont, CA** Pursuing accelerated completion in May 2028 | Expected May 2029

*Bachelor of Arts, Integrated Sciences*

*Academic Focus: Design Engineering and Human-Centered Design*

- 4.0 GPA

## EXPERIENCE

**Product Space, Claremont, CA**

**Oct 2025 – Present**

*Leadership Team (Jun 2026 – Present)*

- Selected from fellowship cohort to lead a cross-functional team of 4 engineers and product managers for a client-sponsored build launching Fall 2026; currently scoping the engagement

*Product Management Fellow (Oct 2025 – May 2026)*

- Conducted user research across five colleges, translated findings into Figma prototypes, and shipped a ridesharing web application using AI-assisted development; analyzed post-launch feedback to prioritize product iterations

**Guidance Redefined, Remote**

**Apr 2026 – Present**

*AI Solutions Engineering Intern*

- Architected AI competitive-intelligence systems for two publicly traded companies using Python web scraping, LLM-based triage, and semi-automated escalation, increasing relevant insight capture by approximately 40% in a measured deployment
- Built a centralized client-delivery system connecting 30+ n8n workflows that automated tool generation and reporting across all client engagements, cutting manual turnaround approximately 75%

**Grantara, Remote/Claremont, CA**

**Feb 2026 – Present**

*Founder*

- Interviewed nonprofit teams to map grant workflows, then prototyped and tested AI pipelines for discovery, eligibility screening, and tracking, surfacing more than \$100,000 in previously missed funding opportunities
- Selected for the Claremont Accelerator and awarded \$1,000 in non-dilutive funding; validating the platform with four early nonprofit users and iterating based on customer feedback

**SOURCE Nonprofit Consulting, Claremont, CA**

**Oct 2025 – Present**

*Director of Associate Consultant Experience (May 2026 – Present)*

- Design biweekly professional-development curriculum for 5-7 associate consultants covering research methods and AI workflow implementation

*Associate Consultant (Oct 2025 – Apr 2026)*

- Analyzed 40+ case studies and search strategies on a five-person team, delivering an SEO and AI-search optimization strategy for a nonprofit client
- Designed and co-presented a one-hour AI-assisted grant writing workshop for 30+ nonprofit leaders at the SOURCE Summit; majority of surveyed attendees planned to adopt the tools

**Bayha Group, Remote/San Diego, CA**

**Jun 2026 – Present**

*Program Co-Designer, Work Wonder Apprenticeship*

- Led 19 apprentices across three project teams delivering research and consulting for ContractXR Inc, running client standups and presenting findings directly to the CEO
- Co-hosted training for 100+ apprentices on responsible AI use, presenting deliverables, and Microsoft Office tools

**PANDAS/PANS Advocacy – Northwest PANDAS/PANS Network & National Youth Alliance** Jan 2024 – Present

*Board of Directors, Ambassador; Founding Member, Legislative Committee VP*

- Advanced PANDAS/PANS legislation across Washington, California, and Vermont through legislative testimony and direct lawmaker engagement, helping secure Washington Senate and House bill sponsorship
- Built two advocacy websites centralizing 10+ medical and legislative resources, supporting growth to 1,000+ Instagram followers
- Published a personal patient testimony to reduce stigma and increase awareness; the piece was subsequently cited by the Northwest PANDAS/PANS Network as an educational resource

## SKILLS & TOOLS

- **Technical:** Python, R, SQL, n8n, AI workflow development
- **AI-Assisted Development Tools:** Claude Code, v0, Codex
- **Product & Design:** Figma, FigJam, Jira, Linear, Notion, Miro
